

## ENVIRONMENT & AGRICULTURE: Sample Graduation Plan

Reviewed 5/10/10 - WW

- **NOTE:** This worksheet is for use as an advising tool to help you prepare your own graduation plan. It will necessarily be modified depending upon when you declare this concentration, and depending upon course scheduling/availability. You should discuss your plan regularly and modify it as appropriate in consultation with your advisor during pre-registration advising.

### Advising Considerations:

\* Note that many Intermediate-level foreign language courses fill CORE HO; and that many foreign language/literature courses fill CORE HL. Use foreign language classes to fill UM Core and plan to study abroad if you want to work overseas after graduation. Also, consider selecting a related area history course to fill CORE SH.

\*\* Complete CHEM 231/232 and CHEM 241/242 (Organic Chemistry I and II) if you are planning to attend graduate school in the biological sciences.

+ An internship is required in this concentration.

++ Select Depth/Focus courses with your long-term plans in mind, e.g., graduate or professional school, agricultural practice or research, and professional setting, e.g., domestic or international. Consult with your Concentration advisor for course recommendations.
