

WILDLIFE ECOLOGY & MANAGEMENT: Sample graduation plan

Reviewed 10/11/10- WW

- NOTE:** This worksheet is for use as an advising tool to help you prepare your own graduation plan. It will necessarily be modified depending upon when you declare this concentration, and depending upon course scheduling/availability. You should discuss your plan regularly and modify it as appropriate in consultation with your advisor during pre-registration advising.

Fall - 1	cr	Spring - 1	cr	SS I	Fall - 2	cr	Sp - 2	cr	SS I

* Students intending to pursue graduate study in environmental science should also take: PHYS 122 (Physics II), MATH 221 (Calculus II), and CHEM 241/242 (Organic Chemistry II).

** Students intending to prepare for Certification as a Professional Wildlife Biologist should discuss relevant course selections with their academic advisor. Courses in "Communication" such as ENGL 101, COMM 107, COMM 200, and Advanced Writing are strongly recommended. Application materials and related information may be found at The Wildlife Society's web page: <http://www.wildlife.org/> Generally, individuals must have 5 years full-time wildlife-related work experience before they are eligible to apply for certification.
