P.E.A.R.L.S
Provide Educational Access to Research & Learning in geociences

Geoscience is one of the least diverse disciplines in science, technology, engineering, and mathematics (STEM). This program will apply scientifically ratified best practices to Provide Educational Access to Research & Learning in geocienceS (PEARLS) for non-traditional geoscience majors, women, under-served, and underrepresented minorities (URM). The work will increase the awareness and access to the geosciences and will develop a diverse, globally competitive STEM workforce.

Spring 2024 Course

Faculty

Dr. Candice Duncan
Assistant Professor, College of Agriculture and Natural Resources
Email: cduncan1@umd.edu

Dr. Ebony Terrell Shockley
Clinical Professor, College of Education
Email: eterrell@umd.edu

Dr. Akua Asa- Awuku
Professor, College of Engineering
Email: asaawuku@umd.edu

TLPL288P

Special Problems in Education; Experiential Learning of Geoscience: An Agency and School Visit Experience

Credits: 1-6

Delivery: Blended Learning

Register

1. Visit: https://testudo.umd.edu/
2. Registration (Add/Drop)
3. Spring 2024
4. Input course name, credit and section number
5. Submit changes
