

46th Annual Wye Angus Sale

Saturday April 6th 2024 12:00 PM EST

**Wye Research and Education Center
Queenstown, MD**

Selling:

- 5 Cow/Calf Pairs**
- 2 Heifer ET Pregnancies**
- 5 Bull ET Pregnancies**
- 28 Yearling Bulls**

Welcome

Welcome to the 46th Annual Wye Angus Sale.

Once again, we are offering an excellent selection of productive cow/calf pairs, elite embryo pregnancies and the top bulls from the 2023 calf crop. The bulls selling in this sale have been on a 140 day gain test with an average daily gain of 3.9 lbs. per day.

Many exciting things have been happening at Wye Angus this year. We started a social media page on Facebook this past fall with great interest. In January, we hosted a two day event called "The Friends of Wye". It was an exciting mix of meetings and herd tours with 25 cattle breeders from 15 different states that we will try to make into an annual event. We will also be opening the Wye Angus Museum and Visitors Center this spring for the first time since the 1970's.

Once again, LiveAuctions.TV will be broadcasting the sale and Teleauction phone bidding for those who can't attend in person. We invite you to come and experience the Wye Angus Program and see an elite set of Angus genetics on Saturday, April 6, 2024.

Jeff Bricker
Program Manager

Kevin W. Morgan
Herd Manager

Lisa M. Yoash
Program Mgt. Specialist

Dear Friends of the Wye Angus Program,

I am excited and honored to invite you to the 46th Annual Wye Angus sale scheduled for Saturday, April 6, 2024, at 12 pm, hosted at the College of Agriculture and Natural Resources' (AGNR) Wye Research and Education Center.

The legacy of the superior Wye Angus herd continues to be a tremendous point of pride for AGNR, with a history dating back to 1979 following its gift by the late Arthur A. Houghton, Jr, and his wife Nina Houghton.

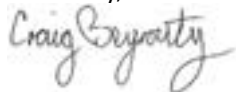

Unbelievably, this sale has been offered to the public every year since 1978. This year we are pleased to offer 5 cow/calf pairs, 7 ET pregnancies, and 28 yearling bulls complete with the high-quality characteristics that represent the superiority of Wye Angus.

The college is committed to its ongoing work with researchers from our Maryland Agricultural Experiment Station, Extension educators, and academic units to address challenges facing the beef industry using the Wye Angus program in areas of production as well as animal health, environmental quality, and sustainability.

This fall we will once again offer our internship program with the Wye Angus herd. Applications are open through May 1 and can be delivered to Lisa Yoash at lyoash@umd.edu with resume and cover letter. This is a great opportunity for an undergraduate student looking to garner some breeding, data capture, sales, herd health and pasture management experience.

The University of Maryland Wye Angus program remains an international leader in production research and I hope that you appreciate the quality cattle we have produced for this year's sale. Thank you for your past support and I hope you enjoy the sale on April 6.

Sincerely,

Dean and Director

This year we are pleased to present our sale using video projection. While no animals will be run through the sale ring, the cattle will be just outside the sale barn for your viewing prior to and throughout the sale.

Saturday April 6th, 2024 12:00 PM EST

46th Annual Wye Angus Sale

Selling: • 5 Cow/Calf Pairs
• 5 Bull ET Pregnancies
• 2 Heifer ET Pregnancies
• 28 Yearling Bulls

Auctioneer: Charlie Strickler-(540) 718-7793

Sale Time: 12:00 PM EST

Sale Location: Wye Research & Education Center,
2016 Carmichael Road
Queenstown, MD 21658

Sale Day Phone: 410-827-6016 Office
410-827-7201 Jeff's Direct Line

Evening Phones: 607-287-9187 Jeff Bricker
410-310-3648 Kevin Morgan

Email: wbricker@umd.edu, kmorgan@umd.edu
or lyoash@umd.edu

Website: go.umd.edu/wyeangus

Pre-Sale Hospitality:

Hors d'oeuvres at the barn Friday, April 5th, 5:00 to 7:00 PM

Lunch:

Complimentary lunch will be served on sale day.

Herd Health:

All bulls will be fertility tested within 30 days prior to the sale and will have passed a breeding soundness examination. Cattle will be accompanied with proper health certificates for immediate shipment.

Liability

All persons visiting the sale do so at their own risk. University of Maryland College of Agriculture and Natural Resources, Wye Research and Education Center, Wye Angus assumes no liability, legal or otherwise for any accidents that may occur.

Delivery:

Free delivery on all cattle within 200 mile radius from Wye. Outside 200 mile radius, maximum delivery charge of \$400.00 per head to central points in the Continental United States. Wye Angus will determine delivery schedule. Alternate trucking available.

Terms and Conditions:

All cattle sell under the standard terms and conditions of the American Angus Association. Buyers are encouraged to remove their cattle immediately following the sale. Cattle not removed sale day will be automatically insured at the sale price and at the buyers expense. The cost of insurance will be added to the buyer's invoice at the rate of \$2.50/\$100 for a 30 day term.

One-Third Semen Interest

Wye Angus is retaining one-third semen interest in several bulls with no possession. Wye Angus may, at the buyer's convenience, collect semen from the said bull for within herd or commercial use. The buyer receives two-third interest full possession of said bull and is in no way limited in activities with the bull or his semen. Either party may promote and merchandise semen from said bull. Either party may sell their interest in said bull at any time and is only required to notify the other owner that the transaction has occurred. Wye Angus retains a semen interest in several bulls from each calf crop for use in future breedings at Wye. We offer the semen publicly through semen sales to compare the Wye genetics to the general Angus population in a wide variety of environments and management styles. It is not the intention of Wye Angus to compete with the new owner of the bull in semen sales. Wye Angus is willing to consider separate agreements regarding the promotion and merchandising of semen from said bull.

EPDs

Are current as of February 1, 2024.

Teleauction

Phone: (888) 259-0463

Participant Passcode: 92897269 then #
For those wishing to bid by conference call, we will have a line set up on sale day. The procedure will be as follows:

- 1) To join the teleauction please call the Wye Angus office (410) 827-6016 no later than 11 AM Saturday morning to receive a bid number and sale order. If you have email or a fax number we can email or fax you the sale order.
- 2) 5 Minutes prior to sale time (12:00 PM EST), call the teleauction number (888) 259-0463 then enter the participant passcode: 92897269 then #.
- 3) Once you are connected, a Wye Angus representative will be your link to the auctioneer.
- 4) To bid, indicate your buyer number to the Wye Angus representative. Your bid will then be relayed to the auctioneer. Obviously, the potential exists for portions of the auction to occur entirely on the phone.
- 5) We ask that everyone refrain from any other conversations during the conference call.

Internet Bids:

Real-time bidding via the internet for this sale. Live audio and live video will allow buyers to bid on animals just as if they were present at the sale. To register and follow the auction in real time on the internet, log on to Website: <http://www.liveauctions.tv>. If you need help registering to bid or to view the auction, please call technical support at (682) 816-4900 or email TechSupport@LiveAuctions.tv.

Wye Angus—The Early Years

Wye Plantation has been farmed without interruption since the 17th Century. One of its early owners was William Paca, signer of the Declaration of Independence and first governor of Maryland. Paca, who died in 1799, is buried at Wye Plantation. His heirs sold the property to a Centreville, Maryland family whose descendants owned it until 1937 when it was purchased by Arthur A. Houghton.

Houghton, then chief executive of Steuben Glass, employed James B. Lingle, an experienced cattleman, to manage Wye Plantation. While they had different business backgrounds, these two men had similar beliefs in quality. Houghton was determined to make the finest glass in the world, and Lingle was determined to create greater beef cattle than the world had ever known—cattle that would be great in size, fine in quality, and economically profitable.

Although Lingle had previously worked primarily with dairy cattle, he admired the production qualities of Angus, particularly the uniformity of the breed. Once Houghton and Lingle agreed on Angus as the breed of Wye, they began selecting stock for the new herd.

They started with 18 heifers and a bull calf, purchased in 1938. The 18 heifers are all the females that Wye Plantation has ever purchased. Twelve of the cow families they represented are still present in the Wye herd today. The bull calf, Blakeford Buxton, was a combination of Earl Marshall and Blackcap Revolution breeding.

Lingle searched for cattle with larger than usual frames. He knew that the larger, taller animals had a “rangier” chassis on which to hang more meat without any sacrifice in carcass quality. His first heifers all proved to be consistent breeders, good mothers, satisfactory milkers, and were blessed with longevity. Outstanding among the first 18 Wye heifers was Capearl #82 who dropped her last calf at the age of 18.

Naming of the Wye Herd

There are ten families left here at Wye. These family names include Florelle, Lullaby Lottie, Pride of Aberdeen, Queen Mother, Alexina, Ballindalach Blackbird, 2nd Br. Blackbird, Clova, Golden Madge and Miss Copeland.

The Wye cattle are named by following the maternal side of the pedigree. The cows are registered using the actual family name followed by their ID number (ex. Lot 1 is Lottie of Wye UMF 11105). The bull names are picked using the first letter of the family name followed by their ID number. (Ex. Alap of Wye UMF 8329 comes from the Alexina family). The (UMF) included in the name which stands for University of Maryland Foundation was added to all cattle born after the University of Maryland Foundation was gifted the herd in 1978.

Scottish Influence

At the time Wye’s herd was beginning, American breeders were raising Angus according to the standards then dictated by the show ring—small, compact, “baby-beef” type animals. Lingle wanted large-framed cattle, and he noticed the great size of Scottish-bred cattle. He particularly liked the “growthiness” of Scottish bulls.

Consequently, in 1941 and 1946 respectively, Wye added

two Scottish-bred bulls to the herd. These were Juryman of Wickwire and Puck of Wickwire, both imported to the United States “in dam” from Scotland and born at Wickwire Farm, owned by George Bailey, of Earleville Maryland.

In 1957, Lingle made a trip to the British Isles in search of more big-framed bulls to add to the Wye herd. His purchases included bulls from Scotland, Ireland, England, and Wales. Among these bulls was Imp. Prince of Malpas from the famous Harviestoun herd in Scotland. Prince was a bull of great proportion who sired some of the most feminine females developed at Wye Plantation during the 1960’s. He also sired some high performing sons that met with considerable demand. Other imports included Jai of Frampton from Wales, noted for his tremendous muscle expression; Valour of Ardrass; and George Swiftbrook were sons of Prince Paul of Barnolby from Ireland and both bulls were of exceptional height, length, and overall frame. A total of 25 bulls were imported from the British Isles by Wye Plantation between 1941 and 1959. Since then no outside or “new blood” has been added to the Wye Angus herd.

In 1979, Mr. Houghton gifted the University of Maryland with the Wye Angus herd. The private, nonprofit University of Maryland Foundation was created to accept and hold the gift for use by the University, and remains the legal owner of the herd today.

Within the University System of Maryland, the Maryland Agricultural Experiment Station was charged with managing the herd on a daily basis and it continues to do so today. With acceptance of the herd gift, the University agreed to make any animals deemed excess to research needs available for the general public in some equitable fashion. The agreement to the annual public auction of Wye Angus cattle held each April since 1979.

The University of Maryland Wye Angus Program Today

This is an exciting time for Wye Angus as recently the Aspen Institute gifted 330 acres to the University of Maryland, and we now own the land needed to maintain the herd and can ensure its future.

Wye Angus also continues to supply grain-fed and grass-fed beef to the University of Maryland Dining Services

Dr. Jiuzhou Song continues his project examining the effects of finishing cattle on an alfalfa and orchard grass diet alters the epigenetic status of genes affecting beef quality and the fatty acid profile. We have finished our sixth group of grassfed-vs-grained steers and Dr. Song has generated four scientific papers from this project.

Dr. Zhengguo Xiao has initiated a project involving *Ostertagia Ostertagi*, the most economically important gastrointestinal nematode parasite in the cattle industry. He will be comparing parasite levels in both our grain fed steers and grass fed steers.

Annual Sale

It’s a Wye Angus tradition to hold its annual sale the first Saturday in April each year.

Wye Research and Education Center appreciates the continued support it receives from these honored guests:

Dr. Craig Beyrouthy

Dean of College and Director,
Maryland Agricultural Experiment Station and
University of Maryland Extension

Dr. Kathryne Everts

Director of the Wye Research and Education Center and the
Harry Hughes Center for Agro-Ecology.

Dr. Puneet Srivastava

Associate Dean and Associate Director
Maryland Agricultural Experiment Station

Dr. Kenneth Staver

Assistant Director of the Wye Research and
Education Center

In Memory

All at Wye mourn the loss of Barbara D. South.

Barbara was a strong-willed, independent person with a drive to always improve herself. She had a fulfilling career of 42 years as an Office Administrator at University of Maryland's Wye Research & Education Center in Queenstown, MD. During those 42 years she helped at the registration table for the Wye Angus Sale. Barbara retired in 2021 after learning she was to become a grandmother.

Barbara never met a stranger. She loved people and people loved her. Barbara enjoyed being outdoors, traveling, boating in the evening to watch the sunset, and spending time with those she held most dear to her heart. During her short two years of retirement, Barbara lived life to the fullest by traveling with family and friends and spent precious quality time with her granddaughter.

Barbara will be truly missed by her work family at Wye Research & Education Center.
